Achievements

- 1st Place in National contest of Degree works of the Venezuelan Computer Society

About Me

Hey! I'm a Frontend Engineer who's passionate about delivering valuable solutions that people love to use. I'm really committed to create high quality products, working alone or alongside other team members to bring great ideas to life. With a strong interest in Ui/Ux Design, Design Systems and New Tools I'm constantly learning and improving my skills to enhance the products I create.

Studies

Informatic Engineering at UCAB - February 2020.

Degree Work: Mobile videogame based in Virtual Reality for the correction of estrabism and ambliopy.

Final Result: 20/20 Points, Honorific mention, Publication mention and 1st Place of the VI National Contest of Degree Works.
